Report from Cambridgeshire Search and Rescue following donation from Willingham Parish Council

Willingham Parish Council have been kind enough to support Cambridgeshire Search and Rescue (CamSAR) on several occasions (2017, 2018 and 2021). The latest award was for £250 which was for the purchase of a Phillips Automated External Defibrillator (AED). This item was requested by our Medical Champion (who happens to live in Willingham), so it was very fitting that the application was successful.

This specialist piece of kit is a portable, life-saving device designed to treat people experiencing sudden cardiac arrest, a medical condition in which the heart stops beating suddenly and unexpectedly. Clearly, the team never know when such an item might be required so the ability to purchase and carry the defibrillator with the team on the vehicles when they are attending an incident is great.

We continue to be extremely fortunate and thankful for all the support that the Parish and Town Councils across Cambridgeshire give us, particularly given the current economic climate, so we thank all the Councillors once again for their generous donation.

Barry Carter, Chair

The Queen's Award  
for Voluntary Service

The MBE for volunteer groups
