		<p>Find out more about measles, including symptoms and how you can get protected at https://www.cpics.org.uk/measles</p>	
07/03/24		<p>Measles isn't just a childhood disease; it can make adults seriously unwell too.</p> <p>With cases of #Measles continuing to rise in some areas, make sure you and your family are protected by having both doses of the free #MMR vaccine.</p> <p>[INSERT IN FIRST COMMENT]</p> <p>Find out more about measles, including symptoms and how you can get vaccinated at https://www.cpics.org.uk/measles</p>	<p>Image shows four adults with plasters on their upper arms where they have been vaccinated. Text reads 'You can book an appointment and catch up on the MMR vaccine at any age. Getting the NHS MMR vaccine is free and usually takes just a few minutes.'</p>
11/03/24 and 18/03/24		<p>Measles cases are continuing to rise in some parts of the country. If you are going away during the Easter break, or having guests to stay, make sure you and your family are protected.</p> <p>Measles spreads very easily and can cause serious complications in some people.</p> <p>The MMR vaccine is the safest and most effective way to protect against measles, as well as mumps and rubella. It gives long-lasting protection with just two doses.</p> <p>If you are not sure about your family's MMR vaccination status, then please contact your GP.</p> <p>[INSERT IN FIRST COMMENT]</p> <p>Find out more about measles, including symptoms and how you can get protected at https://www.cpics.org.uk/measles</p>	<p>Text reads 'Measles: Are you protected? You need 2 doses of MMR for lifelong protection. If you haven't had both doses, you could be at risk. Contact your GP practice and book an appointment if you're not up to date.'</p>
14/03/24		<p>Measles cases are continuing to rise in some areas of the country.</p> <p>It's very easy to catch measles if you're in close contact with someone who has it. Nine out of ten unvaccinated children can catch measles if someone in their class has it.</p> <p>The MMR vaccine is the safest and most effective way to protect against measles. If you or your family haven't had both doses, it's never too late to catch up. It's free on the NHS, whatever your age.</p> <p>[INSERT IN FIRST COMMENT]</p> <p>Find out more about measles, including symptoms and how you can get vaccinated at https://www.cpics.org.uk/measles</p>	<p>Image shows a child having a vaccination. Text reads 'More than 3 million unvaccinated children are at risk of catching measles in England. Make sure your child is up to date with their vaccinations.'</p>
20/03/24		<p>#Measles isn't just a childhood disease; it can make adults seriously unwell too.</p> <p>Getting lifelong protection against measles is simple – you just need to have 2 doses of the #MMR vaccine.</p>	<p>Image shows a woman with a plaster on her arm after being vaccinated. Text reads 'Measles is not just a childhood disease – it can make adults seriously</p>

	 <p>NHS</p> <p>Measles is not just a childhood disease – it can make adults seriously unwell too</p> <p>Make sure you are up to date with your MMR vaccinations</p>	<p>You can catch up on the vaccine at any age, so if you or a loved one aren't up to date, contact your GP surgery to book a catch-up appointment.</p> <p>[INSERT IN FIRST COMMENT]</p> <p>Find out more about measles, including symptoms and how you can get vaccinated at https://www.cpics.org.uk/measles</p>	<p>unwell too. Make sure you are up to date with your MMR vaccinations.'</p>
