

YOUTH SURVEY

SOUTH CAMBS

Why are we rolling out a Youth Survey?

The Youth Survey is seen as a 'Big Conversation Starter' to help services who support youth projects and community facilities in the area to better understand what it is like to be 11-19 years old living in South Cambs

We want to understand and capture your views, feedback, ideas and suggestions on:-

- Your Community (facilities, crime, leisure)
- Your health and relationship related needs.
- Support you may need to navigate through the transition of being a teenager to an adult.
- How best to communicate information to you.

Who is Involved?

The survey has been created by young people and representatives from Cambridgeshire County Council, Neighbourhood Police Teams, South Cambs District Councils, Health, Housing, Developers (people building the new houses), and the Voluntary Youth Sector.

Locally youth workers from Connections Bus Project, Romsey Mill, Young Carers (Centre 33), Young Peoples Counselling Service, and The Kite Trust have all been involved.

What will happen with the results?

All data gathered will be used to identify what youth provision and targeted youth support programmes (Smaller group work sessions on specific themes) are needed for each community.

We have secured some funding to help increase the local youth provision. This will be delivered by the voluntary youth organisations, we mentioned earlier.

We will also support these organisations to submit requests for more funding to deliver your ideas. This will be to places like the National Lottery, Comic Relief and Children in Need .

How will we find out if any changes happen, and if our views have influenced anything?

We will keep you updated via social media, sharing information with the school, youth providers and by placing posters in the local shops. It will be short and to the point. The below format will be used:-

YOU SAID THIS (Your responses)

WE DID THIS (Telling you what has been done).

Who will see my responses?

No information you share will make you identifiable.

**SPEAK
OUT!** 

Get Heard. Make a Difference.

How organisations and schools can support the youth survey in South Cambs

- We could come in to school to do an assembly to promote it and hand out flyers?
- We could be in school at break times and lunchtimes to promote the survey, and support students to access it via mobile phones or via the internet
 - Flyers to promote it in youth clubs and projects
 - Focus groups in school or the community
- It could be sent out to parents to help young people participate in the survey

We would really appreciate your support by completing the survey via the QR code.
